*Utilizing over 4 years of experience software development expertise to excel in challenging IT roles and contribute to innovative projects in the industry.*

## Profile Summary

- Excel in creating backend microservices by developing comprehensive technical specifications, documentation, and architectural designs for smooth and efficient operations.
- Proficient in designing and implementing secure single sign-on solutions, ensuring seamless and protected access for users across various platforms.
- Proficient in a range of programming languages and frameworks, including C, Core Java, Python, and Spring Boot. Experienced in database management with MongoDB and MySQL, and skilled in using tools like Postman, Git, and IntelliJ for streamlined development processes.
- Authored a research paper on data mining techniques applied to artistic painting, showcasing a commitment to innovation and technology advancement.
- Enthusiastic about open-source technologies and committed to ongoing professional development through certifications and practical experience.

## IT Skills

**Programming Languages:** C, Core Java, Python.

**Web Framework:** Spring Boot

**Database:** MongoDB, MySQL, Redis

**Applications and Tools:** Postman, Git, Jira, Confluence, IntelliJ, MongoDB Compass, ServiceNow, Medplum & Office suits.

## Core Competencies

- |                                   |                            |                                    |
|-----------------------------------|----------------------------|------------------------------------|
| • Automated Testing Platforms     | • Performance Optimization | • Data Mining Techniques           |
| • Software Development Life Cycle | • Research and Development | • Backend Microservice Development |
| • Security Enhancement            | • Technical Strategies     |                                    |

## Organizational Experience

**Fluent Health, Mumbai | Software Engineer | Jun'24– Present**

### Key Result Areas:

- Spearheading the development of scalable and efficient backend services in collaboration with the team.
- Developing scalable and efficient backend services while ensuring detailed technical specifications and documentation for seamless operations.
- Implementing a new data storage management system, resulting in increase in data retrieval speed, enhancing the efficiency of backend services and overall system performance.
- Introducing integration test cases for backend applications, leading to decrease in bugs identified during the testing phase, ensuring higher code quality and smoother product releases.

### Achievements:

- Successfully collaborated with a team to develop and deploy RESTful backend APIs for healthcare products.
- Implemented innovative solutions for enhancing user experience and autonomy in healthcare decisions.

**TATA Digital Private Limited, Mumbai | Senior Digital Engineer | Aug'20 – Jun'24**

### Key Result Areas:

- Led a development team, ensuring adherence to timelines and quality standards.
- Implemented cost optimization strategies, boosting user enrolment and login traffic by 25%.
- Achieved 85% user data conflict resolution through cross-functional collaboration.
- Established best practices for GIT repository management.
- Engineered SSO architecture for seamless integration with TATA partner brands.
- Enhanced RESTful API performance and security.
- Mentored junior developers and facilitated knowledge sharing.
- Resolved integration challenges and ensured timely project delivery.
- Applied automated testing and performance evaluations to stabilize code quality.
- Promoted modern tools and methodologies to improve workflow efficiency.
- Reduced infrastructure costs while maintaining service quality.
- Addressed performance bottlenecks through system monitoring and solutions.
- Aligned technical solutions with business objectives for value-driven outcomes.

## Education

---

- 2020: M.Tech. (Computer Engineering) - Veermata Jijabai Technological Institute (VJTI), Mumbai, Maharashtra, India
- 2018: B.Tech. (Information Technology) - Walchand College of Engineering (WCE), Sangli, Maharashtra, India

## Certifications

---

- **CORE JAVA** - Core java certification course (2018) Naresh i Technologies, Hyderabad
- **PYTHON** - Introduction to open-source course (2015) FOSSEE project IIT Bombay.

## Extracurricular Activities

---

- Serving as Vice President of Smile Foundation, an NGO dedicated to improving health, education, and environmental conditions in society (Wani, Yavatmal, Maharashtra).
- Contributed to the National Conference on Mathematics and Its Applications in Technology, held in 2020 (VJTI, Mumbai, Maharashtra).
- Acted as Chief Administrator for the Department of Information Technology during the 2017-2018 academic year (WCE, Sangli, Maharashtra).

## Project

---

### ICEApp - medical urgency app for doctors | Duration: 6 months

- Developed the "In Case of Emergency" application, designed to facilitate patient transfers from Primary Health Centers (PHC) to Tertiary Health Centers (THC).
- Proposed and engineered the mobile application utilizing Java and Android Studio, optimizing for efficient and reliable use by healthcare professionals

### Question Paper Quality Checking Tool | Duration: 1 year

- Designed and implemented a web-based question paper evaluation system for the exam cell department.
- Proposed and developed the platform using NLTK, PHP, and Python technologies, enabling efficient and automated evaluation processes.

## Paper Published

---

- Finding Dominant Color in the Artistic Painting using data mining Technique", International Research Journal of Engineering and Technology (IRJET), Volume: 07 Issue: 05, May 2020, Piyush. S. Atram, Prof. Pramila M. Chawan.

## Personal Details

---

**Address:** B-410, Nisarga society, Jerbai wadia road, near Indian Cancer society, Bhoiwada, Parel, Mumbai - 400012

**Date of Birth:** 30th August 1995

**Languages:** English, Hindi, Marathi
